

PROGLOVE

PREMIUM POWER

PROTECT

Application Area

Before work apply PROGLOVE evenly on hands, which previously have been cleaned thoroughly and dried carefully. Apply generously as small amounts only offer low protection. Rub in the cream evenly, paying particular attention to vulnerable areas such as between the fingers and around the nails. After evaporation of the alcohol, the protective film is active. In order to maintain the skin protection, the application of PROGLOVE should be repeated, especially after washing or exposure to mechanical stress. Principally, PROGLOVE should be reapplied every two hours.

Product Description

Transparent gel which contains alcohol, fragrance-free, without greases, silicone-free, pH-neutral.

Product Properties

- The property changes of latex and nitrile gloves have been tested according to EN 455-1:2000 and EN 455-2:2009. No changes have been observed after two hours application time. If in doubt, please contact the manufacturer of the gloves.
- Silicone-free.
- Fragrance-free.
- Contains alcohol.
- With skin-strengthening hamamelis and moisturizing bisabolol.
